EHT-LPS

LINEAR POWER SUPPLY FOR EHT-7 ENERGIZER

Specially designed for the EHT-7 energizer, the EHT-LPS Linear Power Supply delivers cleaner and more stable power than conventional switching supplies. It eliminates high-frequency noise and provides pure, ripple-free electricity, resulting in deeper, more powerful bass, fast transients and richer dynamics.

- Audio Grade R-Core Power Transformers
- Two top-performing LT3045 voltage regulators
- Selected Filtering Capacitors (Nichicon Fine Gold + Elna Silmic II)
- EMI Filtering
- CNC Aluminium Chassis

Specifications

Power Output: DC 15V / 1A Max, GX-16 2 pin
Power Input: AC 110V or 220V
Power Consumption: 15W
Power Output connection Pinout: 1: Positive / 2: Ground
Warranty period: 1 years
